

Notice of crossing point update, Greenway

February 2023 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. If you have any questions or enquiries about our work, please contact our Helpdesk to find out more. You can sign up for regular updates in your local area at www.hs2inyourarea.co.uk.

What are we doing?

In previous communication we updated communities on the construction of our internal site access road and crossing points. The site access road will keep HS2 construction traffic within our work areas, helping further reduce our impact on the local community.

In March, our crossing point on The Greenway, near Fleet Marston will become operational.

This crossing point will have temporary 2-way traffic lights and is located where the HS2 site crosses the greenway. The traffic lights will ensure safe, controlled crossing from our works sites across the Greenway.

From March, our team will also be working on our mitigation sites, which is where we are managing our replanting works. Due to the wet weather and ground conditions, our site vehicles may need to use the Greenway to access the mitigation sites.

When our site vehicles are entering and exiting, you may see our temporary traffic lights switched to red for a short period of time, to enable passage for the site vehicles. Where practical, we will make improvements and adjustments to the lights as required.

When will these works take place?

Our temporary crossing point near the Greenway will be operational from Thursday 16 March 2023.

The works on the mitigation site will commence on Thursday 16 March 2023. We anticipate this to only be one day of work however, dependent on ground conditions, the planned timing for this may change.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Duration of works

Thursday 16 March 2023.

Normal working hours:

Monday to Friday

8am – 6pm

Saturdays

8am – 1pm

Our contractors may be on site for one hour's start-up and shutdown either side of these times.

There may be a short duration outside of these times to allow for the set-up of road signage and traffic lights.

What to expect

The greenway will be operational.

Noise from plant and equipment used for the works.

What we will do

Respond promptly to any complaints and take appropriate action.

How will the crossing work?

The traffic lights for the Greenway will remain on green until our construction traffic is ready to cross the highway. They will only be active during our working hours.

Access will be temporarily disrupted over the crossing points while vehicles are using the crossing point. We anticipate this to be a few minutes of delay.

Where will the works take place?

The image below shows the area where our temporary traffic lights will be located for our crossing point.
