

Notice of survey work for water main diversion – Shelton under Harley.

February 2023 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable water supply, Severn Trent Water commenced survey works in January 2023.

What are we doing?

Severn Trent Water will be undertaking topographical surveys in order to carry out their water main diversions.

Surveys will be undertaken on Bent Lane.

To carry out the work safely, traffic cones will be situated temporarily on Bent Lane in the area shown on the map below.

When will the work take place?

The work is planned to take place on 1 and 2 March 2023 between 9am and 3pm.

How will this affect me?

The vehicle being used for these works will be a single transit van.

We do not anticipate our traffic movements to have any significant impact on the local road network. The plan below shows the extent and position of the temporary traffic management measures, which will be on Bent Lane.

We have designed our works to avoid disruption to the water supplies of our customers.
