

HS2

Notice of ground investigation surveys, Hamley Heath

High Speed Two (HS2) is the new high speed railway for Britain. We are writing to make you aware of the next stage of work that will be undertaken by National Grid that is related to HS2.

What are we doing

In order to construct the new railway it is necessary to divert a number of high voltage electricity cables situated in the vicinity of the proposed HS2 infrastructure.

National Grid will be carrying out ground investigation surveys in the area to gather data which will inform the design of the electricity infrastructure diversions.

We will excavate trial holes and take borehole samples in fields off the **B5103 at Hamley Heath**, using a wheeled excavator.

Work will begin on **Monday 17 April to Friday 12 May 2023**.

How will this affect me?

Our survey team will be working within the fields in this location, and we do not expect the works to affect residents.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at: www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at: residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing: complaints@hs2-cc.org.uk

Property and compensation
