

# UK Power Networks 24-hour works on site in front of Cartmel

## Emergency maintenance works - Friday 26 May to Friday 2 June

Working hours: 24 hours

UK Power Networks will work on site in front of Cartmel, to carry out emergency maintenance to their cable network.

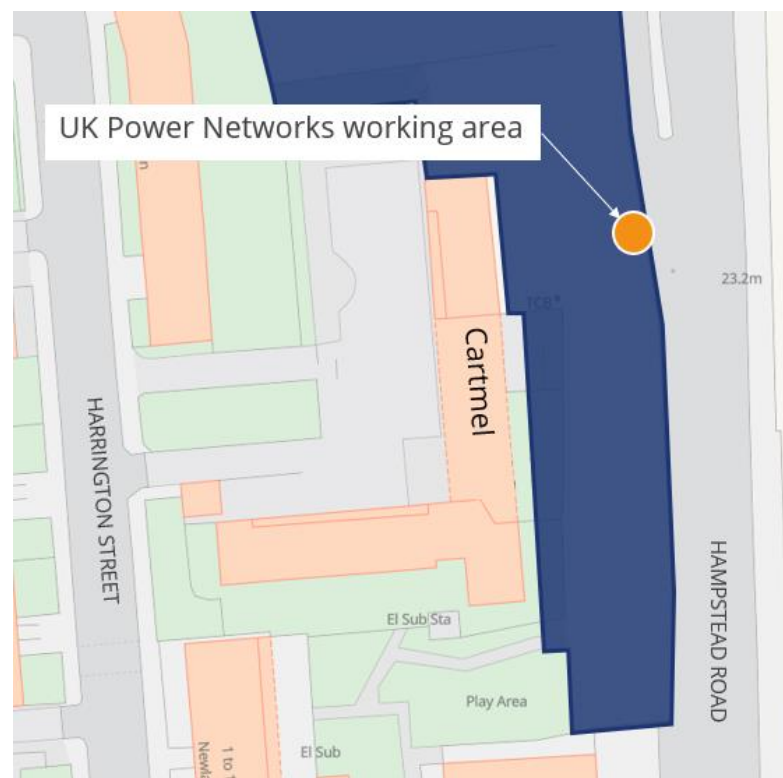

A small team will work 24 hours a day from Friday 26 May, until the repairs are complete. We expect this will take about a week.

The team will use an excavator to dig and expose the cables, before using hand tools for the repairs.

We don't expect these works to be particularly noisy, but you may notice vehicles and the team working on site during the day and night.

The team will use lights to work at night, but these will be directed away from the building.

If you have any questions, please contact UK Power Networks on 0800 029 4285
