2. Concrete Box (grey)

4. Euston Throat railway cutting (red)

3. Headhouses

5. Bridge extensions (green)

Morningning Street bridge

Granby Terrace bridge

Hampstead Road bridge

Trains emerge from the bored tunnels into an underground cavern. Trains will pass through the cavern and into the excavated tunnels.

Trains pass from the tunnels into a covered section of the railway cutting. Lendlease is designing what will be built on top of this.

Trains pass beneath Granby Terrace and emerge in an open-air section of the railway cutting, passing beneath Hampstead Road bridge in the final approach to Euston Station.
