# Road works from Hampstead Road to Stanhope Street

June 2023 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain.

## Lane closures on Hampstead Road – 19 June to December

We are currently installing a new cable route from Lidlington Place to Varndell Street via Granby Terrace, to replace the existing route on Hampstead Road.

On 19 June we will recommence utility works on Hampstead Road.

From 19 June to December there will be multiple lane closures on Hampstead Road, between Harrington Square and Granby Terrace. We will maintain one lane for northbound traffic and one lane for southbound traffic. Pedestrians will not be impacted by these works; the footpath and pedestrian crossings will be maintained. Please see the map on the following pages.

You may notice periods of increased noise as we breakout and reinstate the road. We will use acoustic blankets where possible to limit noise.

## Works on Granby Terrace bridge

We are preparing the existing section of Granby Terrace bridge before we add the extension. Over the next twelve months, we will resurface the road and begin diverting utilities across the bridge. Most of the work on Granby Terrace bridge will be carried out during core working hours. However, for safety, some of the work can only be carried out during weekends when the tracks below are not in use.

### Overnight works on Granby Terrace bridge – 10 to 11 June

We previously informed you we will work overnight from 9pm Saturday 3 June to 7am Sunday 4 June to grit-blast and remove the surface of the road. These works have been rescheduled and will now be carried out the weekend of 10 to 11 June. If the works cannot be completed in this shift, we may need to work overnight from 17 to 18 June and 24 to 25 June. You may notice periods of increased noise as we use large machines to scrape off the surface of the road and vacuum loose materials. We will place acoustic barriers around our works to limit noise and dust and will monitor our works closely to ensure we operate within the approved noise limit.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
