

Colne Valley Viaduct crossing of Moorhall Road, Hillingdon

June 2023 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Align JV is building the Colne Valley Viaduct, which crosses Moorhall Road in Hillingdon.

What works need to take place?

The Colne Valley Viaduct (CVV) will cross Moorhall Road at a point between Korda Lake and Savay Lake, just south of the Grand Union Canal. The building of the support structures for the crossing, and the crossing of the road itself, require a series of traffic management phases starting with a single lane closure, followed by overnight road closures and then a full road closure during the day and night to allow this to be done safely.

To ensure our works do not coincide with other road closures in the area, and can be completed in the school holidays, we are bringing forward our viaduct crossing works on Moorhall Road and building the span over the road ahead of schedule and before the arrival of the launching girder later this year. See a map of the closure on page 2, along with a table of dates and times for the different traffic management phases that will be in place.

From Friday 28 July to Friday 18 August the road will be closed all hours of the day, every day of the week. A signed diversion route will be in place. The diversion route is shown on page 3. There will be no vehicle access between Denham and South Harefield during the full closure.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
