

# Notice of preparatory works at Curzon Street Station

July 2023 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Early works for Curzon Street station are being carried out by a joint venture between Mace and Dragados (MDJV).

## Preparatory works at Curzon Street Station from late July 2023

### What are we doing?

We will be carrying out works in preparation for the construction of HS2's Curzon Street Station and the railway. Most of these works will be within the hoardings of the site.

We will carry out sheet piling to build a concrete wall. This will enable further excavations to build strong foundations for the station.

Piling mats will be built to provide stable working platforms for future piling works.

Ground investigation works will be carried out to confirm the ground conditions.

There will be an increase in construction traffic along Curzon Street while we remove spoil material from the site.

### When will these works take place?

From late July 2023

### What to expect?

- Increased construction traffic on Curzon Street
- Increased activity on the Curzon Street Station site
- Please plan ahead, allow more time for your journey and remember to check your journey regularly.
