

## Notice of continuation of utility diversion works on Cobourg Street and Canopy installation at Euston Station

August 2023 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Mace Dragados is the Construction Partner building the new HS2 station in Euston.

### Update on utility works on Cobourg Street

In March 2023 the Government updated Parliament that the construction of HS2 in Euston would be rephased. This allows time to look again at the Euston station design to ensure that it is affordable and delivers for the community and passengers. In line with this direction, most works were paused with some preparatory works continuing. At this time, utility works were paused.

Following a recent review, some funding has become available to continue with additional preparatory works during the pause period. This includes the essential utilities diversions under Cobourg Street. **Please be aware, this means that the road will not reopen this Summer** as previously communicated. We apologise for any continued inconvenience as these works are completed.

### Canopy installation - Euston Station Piazza

From 14th August until early October 2023, we will install a temporary canopy on the Euston station piazza. The canopy will provide a partially sheltered route from the assisted travel drop off point to the station entrance.

We recognise that construction work can be disruptive to those living and working nearby. The nature of our work often means some disturbance is unavoidable but assured that every effort is made to minimise any unnecessary noise. Please note that changes to the programme may occur and if these changes are likely to cause any disturbance, we will write to you again.

Please continue to read the rest of this notification for an update on the works mentioned above.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [HS2enquiries@hs2.org](mailto:HS2enquiries@hs2.org)**
