High Speed Two (HS2) is the new high speed railway for Britain.

What are we doing?

Between **18 October and 15 December 2023**, UK Power Networks (UKPN) will be carrying out electric cable installation works within the Network Rail Site. This will support the delivery of power to the Tunnel Boring Machines when we start the construction of the new HS2 tunnels.

How will this impact you?

The electric cable installation will not impact your electricity supply.

These works may have minimal levels of noise and vibrational impact to members of the public who are near the site at the time of works.

UKPN will be working in the area highlighted on the map on page 2.
