

Ground investigations in the Camden area

November 2023 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

Ground investigations in your area

On **16 and 20 November 2023** we will be carrying out a series of surveys on Loudoun Road and Eton Avenue.

We will use scanning equipment to create a map of the utility services below the road. They will be marked using biodegradable spray paint. Once the survey of the site is complete, we will take photos of the paint marks to record the location of the utilities.

We will use noise reducing barriers where possible to help minimise any noise disruption to the local community, and work as efficiently as possible whilst keeping our work areas safe and tidy.

How will this affect you

To ensure the safety of the public and our staff, temporary changes will be in place on Loudoun Road and Alexandra Road and will include lane closures, footpath closures and parking suspension.

These temporary changes are shown on the following pages.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
