

Notice of Lane Closure on A51 Stone Bypass approaching Aston Roundabout

High Speed Two (HS2) is the new high speed railway for Britain.

Project update

On 4 October 2023, the Prime Minister announced that the Government proposes to deliver a broad range of transport initiatives in place of investing in Phase Two of HS2. This means that HS2 Ltd is not undertaking any 'new' work to progress plans for Phase 2a of the project and is working with Government to agree the next steps on this phase of the project.

The activity described below is needed either to finish work on an existing site, for the ongoing maintenance of a site, or for health, safety and security reasons.

What we are doing

As part of our ongoing maintenance works, we are undertaking ecological surveys and fencing works in an area off the A51. These works are required to demarcate and secure land under possession by HS2.

Balfour Beatty will be using flatbed road vehicles and trailers to deliver material as required to the working area.

We will need to install traffic management to close 1 of the 2 lanes on the approach to Aston Roundabout. This is required manage the safe movement of the vehicles and people into the working areas.
