

Colne Valley Viaduct construction movements over Moorhall Road, Hillingdon

November 2023 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. This notification is to inform you that the machine building the Colne Valley Viaduct deck will cross Moorhall Road in Hillingdon.

Movement of launching girder over Moorhall Road

The launching girder being used to construct the Colne Valley Viaduct, named "Dominique", will soon mark the halfway point in the construction of Britain's longest viaduct by crossing over Moorhall Road in Hillingdon. Work to move the launching girder is expected to begin on Monday 6 November. Road traffic and pedestrians will not be affected by the works.

Work to transfer the launching girder over the pre-constructed deck over Moorhall Road will be undertaken from 6 November to 10 November. After this, the launching girder will resume operations in its new position south of Moorhall Road. The launching girder will then begin the final stretch of its journey building the deck across Savay Lake, the Grand Union Canal, and Harefield Lake no.2.
