What we are doing

Overnight on Saturday 13 and Sunday 14 January 2024, we will be installing monitoring equipment on the underside of the railway bridge on Station Approach.

We will erect a tower scaffold within the work areas shown on the map overleaf so that we can carry out the installations safely.

How these works might affect you

There will be a lane and pedestrian footpath closure so that we can work safely during the installation of the equipment. Temporary traffic lights and pedestrian crossings will be in place during this time. This arrangement will be swapped to the other side of the road so that we can install the monitoring equipment on the opposite underside of the bridge.

We would like to apologise in advance for any disruption or inconvenience this may cause. Every effort is being taken to ensure that these works are carried out in the least impactful way and we will ensure that disruption is kept to a minimum.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
