High Speed Two (HS2) is the new high speed railway for Britain. We are writing to make you aware of the next stage of work that will be undertaken by National Grid Electricity Distribution (NGED) to reroute domestic electricity supplies required for the construction of the new railway line.

### What are we doing.

To construct the new railway, it is necessary to remove an old underground cable and replace it with a new one. This cable runs from the east of the existing HS2 Construction compound to the west.

**All the works will be within the current HS2 compound.**

This work is being done in conjunction with the electrical cabling work previously advised to you by Balfour Beatty Vinci, which is due to start on Monday 29 January.

Access for staff and machinery will be through the existing HS2 entrance.

### How will this affect me.

The works will be in a construction area that will have no impact on the local community, however there will **be a lane closure for 1-day** on Attleboro Lane. The date for this lane closure is unknown but will be advised to you nearer the time.

Our normal working hours will be **Monday to Friday 8 am to 6 pm and Saturdays 8 am to 1 pm**. Our contractors may also be on site for **set-up and shutdown either side of these times, you may see security checks outside of these hours**.
