

# Update: weekend works in Euston Approaches

January 2024 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain.

## Weekend and extended hours site maintenance

Our site, offices and equipment require regular planned and unplanned maintenance. We frequently carry out maintenance work during extended hours when the office or worksite is not in use, and we can safely disconnect utilities or lift large equipment. This work is generally quiet, and we don't expect neighbours to notice.

On Saturday 3 February, we will remove the security cabin at our site office on Hampstead Road. We will then break out the concrete ramp at the entrance. The concrete breaking should take no longer than one hour. On the following weekend, Saturday 10 February, we will use hand tools to install a new temporary concrete ramp.

On both weekends we will work from 8am until 1pm. We will not start any noisy works until after 9.30am. We will cover our working area with acoustic tents and monitor noise levels closely to ensure we are working within the approved limits.

We also carry out regular maintenance to our site hoarding once a month, on a Saturday night. We will carry out this work overnight on 17 to 18 February.

We will temporarily close the northbound lane on Hampstead Road and maintain two-way traffic in the southbound lane using temporary traffic lights. You may notice brief periods of noise as we clean the road and the hoarding.

We apologise for the inconvenience these works may cause.

## Ongoing surveys and monitoring at track-level within the Euston Approaches

We carry out regular surveys and monitoring of the bridges and structures within the railway cutting, to inform and assess the impact of our works. For safety, due to the location of these structures beside, above and below the railway tracks, we can only carry out these surveys when the tracks are not in use. This means we frequently carry out surveys during weekends and overnight shifts.
