

UPDATED: Notice of closure of the M42/M6 link road, near Water Orton

January 2024 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI is working in partnership with HS2 Ltd to build the new high speed railway in your area.

The work we will be doing

Throughout 2023 we have been constructing the piers and abutments for the M42/M6 link viaducts. There are two 158m long composite viaducts in this area that will carry the HS2 line over the M42/M6 motorway, between Interchange station and Curzon Street Station.

Most of these preparation works have been done off-line to minimise disruption, where possible on the live road network. We are now ready to push the first viaduct into position which will be completed in two main launching phases. A breakdown of the first phase is detailed below.

This is the first time this technique has been used in the UK. This technique allows for the viaducts to be installed, during short, temporary closures of the M42/M6.

A breakdown of the work

The breakdown of the works we will complete during the closure:

Two weeks of overnight closures - to gain access to the central pier to install the temporary equipment and access scaffold for the bridge launch:

- Westbound carriageway- from Wednesday 24 January to Friday 2 February, 9pm to 5am each weekday. The closure will be in place from the M42 southbound at junction 8 to the M6 northbound at junction 4a.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Notice of closure of the M42/M6 link road, near Water Orton

www.hs2.org.uk

To make HS2 possible in the West Midlands, it is necessary to construct multiple assets within what is known as Delta Junction. This area is located from Green Lane in Coleshill up to Water Orton Village. These assets will support the construction of the HS2 line of route, ensuring the future operation of HS2 is possible.

Delta Junction is situated in the borough of North Warwickshire and consists of several large construction assets that BBV are responsible for delivering. Delta Junction incorporates the main line running North to South and the line running in and out of Birmingham known as the Birmingham Spur / North Chord.

Balfour Beatty VINCI (BBV) has 3 main interfaces with the National Highways strategic network within Delta Junction. The structures that interface with the network are M42/M6 East and West viaducts, M42 Coleshill box structure, Water Orton 1 & 2 viaducts.

The M42/M6 link road works are key to the earthworks haulage strategy as the east viaduct will be used temporarily by dump trucks to transport material over the link road, reducing the number of lorries going onto the strategic road network. The site accesses which were built in July 2021 are now used regularly by BBV to facilitate the construction of structures, earthworks and tunnels.

Each viaduct will be built and incrementally launched in two phases using a push-pull jacking system. Once the launch is complete, various activities will follow including parapet installation and deck construction. To complete this work, there will be different phases of traffic management implemented onto the M42/M6 link road, to ensure that the work is completed safely and risk to the road user is minimised.

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you.

The Residents' Commissioner

The independent Residents' Commissioner oversees and monitors our commitments to you.

The commissioner's reports and our responses can be found at www.gov.uk/government/collections/hs2-ltd-residents-commissioner

The Residents' Commissioner makes sure we fulfil the commitments in the HS2 Community Engagement Strategy (<https://bit.ly/3oOA25j>).

The Residents' Commissioner can be contacted on: residentscommissioner@hs2.org.uk

Construction Commissioner

The independent Construction Commissioner regularly meets our Chief Executive Officer to raise any concerns or emerging trends across HS2.

The Construction Commissioner's role has been developed to monitor the way we manage and respond to construction complaints.

The commissioner mediates on disputes about construction, involving individuals and organisations, that we can't resolve. The commissioner advises members of the public about how to make a complaint about construction.

The Construction Commissioner can be contacted on: complaints@hs2-cc.org.uk

Property and compensation

You can find out about HS2 and properties along the route by visiting:

www.gov.uk/government/collections/hs2-property

Find out if you can claim compensation at:

www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting the HS2 Helpdesk. For more details on our complaints process, please visit: www.hs2.org.uk/in-your-area/contact-us/how-to-complain/
