

Notice of utility diversion works – Saltley Viaduct, Birmingham

July 2024 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable gas supply, Cadent needs to divert a gas pipeline in Saltley, Birmingham.

What we are doing

Cadent needs to move an existing gas pipeline underneath the B4114 in Saltley, Birmingham, to allow for the construction of a new raised viaduct for the railway.

Cadent will be working from the existing Balfour Beatty Vinci (BBV) JV works compound south of the B4114 from around **22 July 2024**, and expect all works to be completed by **end of March 2025**.

The work will involve:

- constructing two shafts on either side of the existing railway tracks that cross underneath the B4114.
- using a boring machine to dig a tunnel between the two shafts.
- installing a new section of pipe through the tunnel.
- connecting and testing the relocated pipeline.

How this will affect you

When the boring machine is operating, it may need to run 24 hours a day. However, because the tunnelling work is underground, we do not anticipate any additional noise or disruption for local people.

- Seven days a week of tunnelling will be between 15 August to 17 November 8am until 6pm Monday to Friday and 8am to 1pm at weekends
- Seven days of 24 hour tunnelling will start 14 October to 17 November.

We will also be carrying out work on the tunnel entrances. Monday to Sunday, between 8:00am to 6:00pm. There shouldn't be any disruption to your utilities during our works. We will keep people up to date as our work progresses.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>
