What we are doing

We wrote to you in October to let you know that from 21 October to 15 November 2024, we will be building a platform that will be used to install twelve steel beams into the ground to the eastern end of the Mandeville Road Vent Shaft site (see image below). This is in preparation for construction of the Headhouse.

Due to other ongoing works on-site and late delivery of some materials, we now expect these works will continue until **29 November 2024**. All works will be during our core working hours of Monday to Friday 8am to 6pm.

To avoid banging the steel beams into the ground using hammer or vibration methods, we will drill holes into the ground and install the beams into these holes. You may notice noise from the construction machinery.

We would like to apologise for any disruption or inconvenience this may cause. Every effort is being taken to ensure that these works are carried out in the least impactful way. We will keep disruption to a minimum.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
