

# Notice of upcoming landscaping works at the Colne Valley viaduct

High Speed Two (HS2) is the new high speed railway for Britain. Align are working in partnership with HS2 to build the Colne Valley viaduct and associated construction works.

## What works need to take place?

With the Colne Valley viaduct now constructed across Savay Lake, we will soon start removing hardstanding material around some of the piers between Moorhall Road and the Grand Union Canal as shown on the map below. At times we will need to use an excavator with breaker attachments, as well as carrying out additional earthworks, drainage installation and landscaping. This may cause some noise during peak times.

The work will take place from Monday 2 September 2024 and will continue until late November 2024.
