

Update: weekend works in Camden Cutting – October to December 2024

October 2024 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

Weekend works in Camden Cutting South – 12 October to December 2024

We previously informed you we would work weekends until the end of the year to complete the extension of Granby Terrace bridge. We are now planning to use the same weekends to also work on the construction of the east capping beam within Camden Cutting South. This is a reinforced concrete structure that will form part of the future Euston Scissor Cut, a concrete box which the trains will run through.

We will work extended hours, from 8am to 5pm, on two non-consecutive Saturdays each month until the end of the year. The dates for these will change each month but we will not work two weekends in a row.

We will limit all noisy works to before 1pm and monitor noise levels closely to ensure we are working within the approved limits. We will use acoustic barriers where possible to reduce noise levels.

We apologise for any disruption these works may cause.

Overnight works at track level in Camden Cutting North – 12 to 13 October 2024

We need to install new fences between our worksite in Camden Cutting and the Network Rail tracks. We previously informed you this would take place on Saturday 5 October. We will now carry out this work on Saturday 12 October between midnight and 5am.

For safety, we can only install these fences when the tracks below are not in use. We do not expect these works to be noisy.

We apologise for any disruption these works may cause.
