# Tower crane base construction, Mandeville Road Vent Shaft site

November 2024 | [www.hs2.org.uk](http://www.hs2.org.uk)

### What we are doing

From **18 November to 20 December 2024**, we will be clearing an area on site (see image below) to build a concrete base for a tower crane due to arrive in January 2025.

A saw will be used to cut up the concrete surface and an excavator will then be used to break out the remainder of the platform. This will create some noise and vibration; we will minimise the breaking as much as possible.

To create the new base, we will dig down one metre and refill with concrete. Concrete will be delivered within core working hours. We will use an excavator and a vibrating plate. You may experience increased construction noise and vibration during these works.

Noise and vibration monitoring will be in place during the works. We will use water sprays to reduce dust and noise barriers around the machinery to help reduce noise. We would like to apologise in advance for any disruption or inconvenience this may cause.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**
