October 2024

Dear neighbour,

Work in your area

What's happening?

I'm writing to inform you about railway upgrades taking place in your area to support the construction of HS2 — Britain's new high speed railway. In this letter, I'll provide details of where we'll be working over the next few months and what to expect.

Work to connect the Great Western Main Line with a new Old Oak Common station

Network Rail is working in partnership with HS2 to prepare the existing railway for the construction of HS2. This involves realigning a large section of track, overhead wires, signalling and other vital rail systems to connect the Great Western Main Line railway to a new station being built by HS2 at Old Oak Common. Our work to prepare and move parts of the railway for HS2 will continue over several years.

Electrification: What do we mean by piling, masts and overhead wires?

Our website has really good information on what we do and what it involves, scan the QR Code or visit the site via <https://bit.ly/rail-electrification>

We are sorry if our work disturbs you, it may be noisy at times and we'll at times be using bright lights, but we'll make every effort to keep disruption to a minimum.

When and where are we working?

On the other side of this letter is a map and dates and times of what we are doing. The nature of our work means we'll regularly move up and down the railway which means we won't be working next to individual properties constantly.

Other work in the area.

HS2 and its partners at BBVS will be working between 19 September and 6 December on the bridge over the Central Line, which will involve some road closures. BBVS/HS2 have already contacted impacted residents about this work, you can see the notifications and access more information by scanning this QR code.

If you have any queries about the work, please telephone our 24-hour national helpline on **03457 11 41 41** or email NRHS2@networkrail.co.uk. Please use the reference at the start of this letter.

If you have any questions about the HS2 project or HS2 construction work, please contact the **HS2 helpdesk** on **08081 434 434** or email HS2enquiries@hs2.org.uk

Yours sincerely,

Myall
