

# Vegetation clearance and monitoring installation, Old Oak Common

February 2025 | [www.hs2.org.uk](http://www.hs2.org.uk)

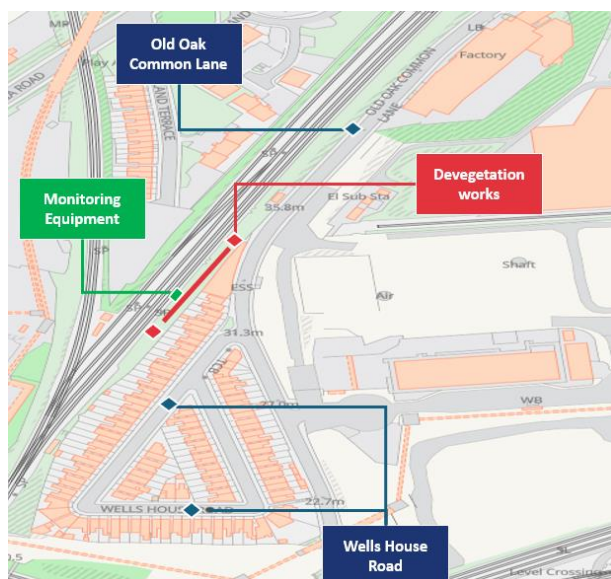

High Speed Two (HS2) is the new high speed railway for Britain.

## Vegetation clearance and monitoring works

From **12 to 14 March**, we will trim low-level vegetation next to the railway tracks behind Wells House Road (157, 159, 161, 163, 165, 167) and Kildun Court. We'll also install monitoring equipment behind 163 Wells House Road, Old Oak Common. These works will take place during daytime hours from 8am to 6pm.

The monitoring equipment will allow us to monitor the area before, during and after building Old Oak Common Tunnel. The removal of the low-level vegetation is required to ensure that a line of sight is maintained between our sets of monitoring equipment.

You might notice noise from the handheld strimmer used to carry out devegetation and an increased staff presence installing the monitoring equipment. The installation of the monitoring equipment will need anchors to be fixed to a concrete base and you might notice noise from a drill for the short duration of these works.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)
