Additional information

We wrote to you earlier this year about our work to protect the Grade II Listed Camden Engine Winding Vaults. We have completed installation of monitoring equipment in the vaults.

From August to December 2026, we will install scaffolding within the vaults for maintenance work. We will deliver the scaffolding parts to the site by lorry, between 11pm and 5am, on Saturday nights, when trains are not using the tracks. The lorries will travel along the Network Rail access road between the vaults' entrance and Juniper Crescent. The route is shown on the map below. The scaffolding will be installed during core working hours.

We will continue regular maintenance for at least a year after tunnelling has finished in Camden. Water levels in the vaults will be managed by pumps. More information about tunnelling in Camden is available [here](#).

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
