

Notice of A45 Coventry Road eastbound carriageway overnight closures and East Way slip road one week closure - near Bickenhill

March 2025 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new high-speed railway in your area.

The work we will be doing

The new high-speed railway will pass under the A45 Coventry Road as it approaches the new Interchange station being built in Solihull. To enable HS2 to pass under the A45, a new overbridge will be constructed which will carry the eastbound and westbound carriageways and its two adjoining slip roads known as East Way and Service Road.

The A45 Coventry Road Overbridge will be constructed in phases. The first phase of construction is to complete the two slip road bridges and connect these to the existing slip roads, before traffic can be switched onto the new bridges and road realignments.

To undertake these works safely we will need to place overnight closures on the A45 Coventry Road eastbound carriageway and a one-week closure of the East Way slip road.
