Upcoming works

We wrote to you in December to inform you about works at our site at West Ruislip Portal. We would like to update you that works will be continuing throughout the next few months until July 2025.

Tunnelling will be completed by March 2025 and works are underway to remove tunnelling support structures inside and outside the tunnels. The demobilisation and removal works will be carried out for the following:

- The conveyor structure
- The launch chamber entrance
- Rail siding
- Gantry cranes and segment yard
- Conveyor bridges

We will only carry out activities agreed with the London Borough of Hillingdon and will adhere to the agreed working hours, noise and vibration limits. We continue to monitor noise, dust and vibration throughout our works to ensure we have adequate measures in place to minimise disruption.

Please see the following pages for more information about locations and the works we will be carrying out over the next few months.
