### What are we doing?

As we continue to progress the Chipping Warden green tunnel we will be increasing our working hours.

Activities will include, installing the tunnel structure and using concrete produced at our on-site batching plant, as well as backfilling the area around the tunnel with layers of earth.

The activities will take place in the tunnel cutting in the area between Aston Le Walls and Chipping Warden. For safety reasons, lighting will be in required and there may be some operational noise from vehicles and other machinery.

We have liaised with the local authority when planning this work and consent for the extended hours has been granted. Noise levels will be closely monitored to ensure they remain within the permitted limits and there will be regular reviews with the local authority.

### When will these works take place?

Our additional working hours will include weekday night working, from 7am on Mondays to midnight on Fridays and at weekends from 7am to 6pm. From 1 April to 31 October 2025.

This activity is subject the local authority consents and approvals and ongoing review.
