

Update on concrete pours at Mandeville Road site

August 2025 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

Concrete pours in September and October 2025

We wrote to you in June 2025 to let you know about deliveries to our Mandeville Road Ventilation Shaft site for concrete pours in July and August. We are writing now with an update about concrete pours planned in September and October.

We are planning four concrete pours in September and five in October. These concrete pours are for works in the main shaft and to build the headhouse base slab. The works will take place in phases, shown as areas 1-6 on the map below. We will let you know when the dates are confirmed.

The concrete pours can take around 16 to 20 hours. We expect all the pours to start at 6am but they will have varied finish times.

There will be a delivery of machinery between 4am and 5am in advance of the concrete pour. The machinery will be removed once the concrete pour is complete. We will close Mandeville Road for about 15 minutes to reverse a lorry out of the site to remove the machinery.

While on-site work is not expected to cause additional disruption, there will be periods of noise from the concrete pour and concrete delivery vehicles. Traffic marshals will guide delivery vehicles as usual. Noise and vibration monitoring will also continue.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
