Update: Work at Westgate Vent Shaft, Hanger Lane, Ealing

HS2-SCS-26-1605

Location

West Gate, Hanger Lane, Ealing

Duration

Ongoing, until August 2027

Core working hours: 8am to 6pm Monday to
Friday, 8am to 1pm on Saturdays.

We may be on site for an hour at the start
and/or at the end of each shift

What we are doing

We are continuing to build the ventilation
shaft and headhouse at Westgate. The
ventilation shaft will allow air to flow in and
out of the railway tunnel below. The
headhouse is the building on top of the
ventilation shaft which contains fire control
and ventilation systems.

Works to connect the ventilation shaft to the
tunnel will take place during the year.

What to expect

You may notice some construction noise. We
will use mitigation measures to reduce
impacts where possible.

We are committed to keeping you informed
about work on HS2. This includes ensuring
you know what to expect and when to expect
it, as well as how we can help you. Should you
have any questions or concerns about our

Additional information

Works on the headhouse include brickwork, blockwork, cladding and roofing and other smaller fit-out activities. We will also be installing mechanical, electrical and plumbing systems within the ventilation shaft and headhouse followed by testing and commissioning.

Other works will include installation of drainage, electrical ducting, below ground water tanks, and retaining walls. We will also do landscaping work which will include paving, creating a vehicle access, and planting.

Where we will be working

Within the ventilation shaft and headhouse, and on site. There will be above ground and below ground works.
