

Notice of water main diversion – off Shaw Lane

June 2025 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable water supply, South Staffs Water are required to commission their recently diverted water mains in fields off Shaw Lane Hanch.

What are we doing

The final stage of the programme will involve valve operations to turn all flows through our new water mains. We will then excavate at the start and end connection points of our diversion. This is required in order to drain down and cap off the old, abandoned pipelines.

When the works will take place

The works will commence on 2 June 2025 to 16 July 2025. The works will be undertaken between the hours of 8.00am to 6.00pm Monday to Friday and 8.00am and 1.00pm Saturday.

You may notice more vehicles on the surrounding roads bringing equipment and materials into our work site.

Works have been planned to avoid disruption to the water supplies in the area.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
