

# Notice of part-closure of footpath on Eastside City Park

High Speed Two (HS2) is the new high speed railway for Britain. Mace Dragados is the Construction Partner building the new HS2 station in Birmingham.

## What we are doing

National Grid need to divert power cables on the junction of Park Street and Eastside City Park. This is to provide the main electricity supply to the Curzon Street station site.

During these works, we need to reduce the width of the footpath on Eastside City Park, near the pedestrian traffic lights on Park Street/Masshouse Circus. This is for the safety of pedestrians and our workforce.

We will separate the footpath with barriers and place signs advising pedestrians and cyclists that the footpath is open during these works.

The maps below show the work areas for National Grid, during this work we will also replace some of our hoardings to CLD fencing on Eastside City Park.

## When the work takes place

We plan to start work between Monday, 9 to Friday, 27 June. It will take approximately three weeks to complete.
