

## Weekend works in Euston Approaches site – August 2025

July 2025 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain.

### Daytime weekend working – August 2025

In the Euston Throat area, we will be preparing the site close to the Network Rail wall for future demolition works. This will involve de-vegetation and the installation of scaffolding.

In the Euston Cavern, we will be installing concrete support structures, known as L-units, close to the Network Rail tracks. We will lift the L-units and secure them into place.

We are also continuing with works on Granby Terrace bridge. Over the August bank holiday, we will install new hoarding panels and work on the southern parapets on the bridge.

We can only carry out the above works when the rail tracks are not in use. We have chosen the quietest methods possible for this work to reduce impact to neighbours.

Please see map on the next page for dates and specific locations of works.

We will work within site, during the **daytime**, from **8am to 8pm** on:

- Saturday 2 and Sunday 3 August 2025
- Saturday 16 and Sunday 17 August 2025
- Saturday 23, Sunday 24 and Monday 25 August 2025

Please see our [coordination map](#) on the HS2 website to view information about these works, and any other works taking place in the Euston area.

### Hoarding maintenance on Hampstead Road – 30 to 31 August 2025

We carry out regular maintenance to our site hoarding once a month on a Saturday night. We will carry out this work overnight on **30 to 31 August**.

We will temporarily close the northbound lane on Hampstead Road and maintain two-way traffic in the southbound lane. You may notice brief periods of noise as we clean the road and hoarding.

We apologise for the inconvenience these works may cause.

## Ongoing surveys and monitoring at track-level within the Euston Approaches

We carry out regular surveys and monitoring of the bridges and structures within the railway cutting, to inform and assess the impact of our works. For safety, due to the location of these structures beside, above and below the railway tracks, we can only carry out these surveys when the tracks are not in use. This means we frequently carry out surveys during weekends and overnight shifts.
