Additional information

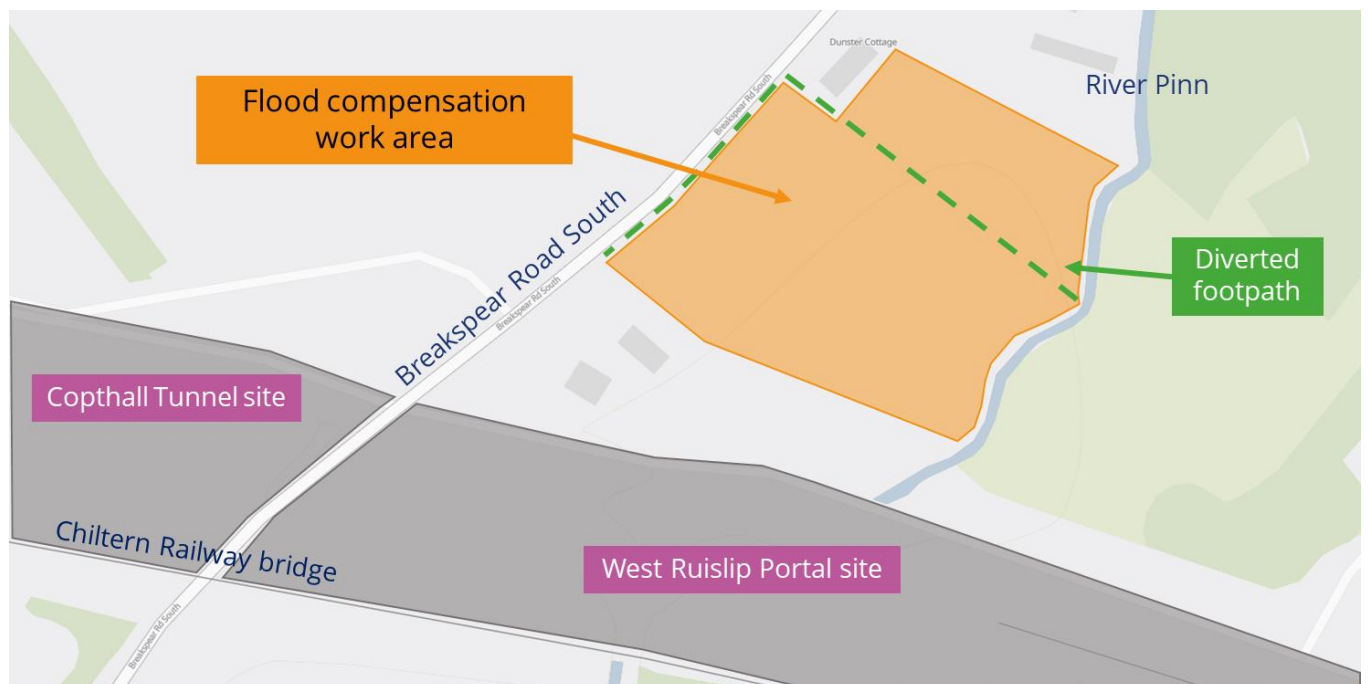

We previously informed you that these works would take place from July 2025 to March 2026. However, the majority of activities were paused during the winter period. We are now able to continue the work and expect them to run until December 2026.

Access to the public footpath will always be maintained and traffic marshals will be stationed at crossing points to ensure safe access.

We will conduct noise monitoring to ensure works are within approved limits and continue to monitor our work methods to keep disruption to a minimum.
