

Notice of utility works on our site

HS2-OOC - SCP-25-1424

Location

Old Oak Common Station

Duration

Saturday 1 November and Sunday 2 November from 8am until 5pm
Saturday 8 November 8am until 5pm
Saturday 15 November 8am until 5pm

What we are doing

We need to continue to install ducting just inside the main entrance to the Old Oak Common station site. These utilities provide services, such as gas and water, that need to be diverted. This is in preparation for tunnelling into Old Oak Common Station. This work involves breaking the concrete, excavating trenches, laying ducting, re-filling the trenches and then relaying the road surface.

What to expect

To help minimise disturbance to the local community, we will not break concrete before 9am. We'll also limit concrete breaking to hourly periods. There will be noise barriers around the work area, and our team will carefully handle tools and equipment.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Where we will be working

Please see map below where the work will be taking place:

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
