Dear Customer,

## **Installation of electricity cables in Barnby Street from junction with Eversholt Street**

UK Power Networks manages the electricity network that supplies power to London, the Southeast, and East of England.

In partnership with our contractor OCU Group on behalf of HS2, we will be continuing the installation of new underground electricity cables in Barnby Street heading along Barnby Street from the junction of Eversholt Street to the entrance of Amphil Estate.

Our work is due to start on 6 January 2026 and we anticipate having this section completed by 27 February 2026.

To carry out this work safely, we will be installing several traffic management structures, including give and take systems, pedestrian walkway suspensions with diversions to maintain the flow of traffic.

We will be excavating short trenches to lay pipework (ducts), then returning to open excavations at intervals along the route to pull through and connect the cables later in the year and join them to our electricity network.

We will need to temporarily suspend some parking bays to enable the traffic flow. We would kindly request you do not park where the yellow 'No Parking' cones are placed and leave space around the area where we are working for site access. Thank you for your cooperation, we will aim to return these bays to service as soon as it is possible.

Our working hours will be from 8am to 6pm, Monday through Friday, and from 8am to 5pm on Saturdays and Sundays. There should be no impact on your electricity supply.

We apologise for any inconvenience caused and will make every effort to minimise the impact on your neighbourhood. If you have any questions, please don't hesitate to contact our customer care team on **0800 028 4587** from 8.30am-5pm or [care@ukpowernetworks.co.uk](mailto:care@ukpowernetworks.co.uk).

If you have any questions regarding HS2 works in the area, please contact the HS2 Helpdesk on **08081 434 434** or via email: [HS2Enquiries@hs2.org.uk](mailto:HS2Enquiries@hs2.org.uk)

Yours Sincerely,
