## Location of works

Please see the map below of where the works will be taking place:

### Central Line excavations

We are continuing with our work to support the construction of railway bridges on land near the Central Line (around 90 metres south from the rear of properties on Wells House Road).

We are again working on a sensitive area around an existing wall on the west side of the Central Line bridge. We will be working night shifts on **Tuesday 5 May** and **Wednesday 6 May** using an excavator over a one-metre strip alongside wider excavations in the area. We work in night shifts, while the Central Line is closed, in case of debris falling on the tracks.

We do not anticipate there to be significant overnight disruption. However, there will be an option to seek temporary alternative accommodation for residents if this is the case. Please contact [community@bbvsjv.com](mailto:community@bbvsjv.com) or the HS2 Helpdesk.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.
