

# Update: Overnight and weekend works in January and February 2026

**HS2-SCS-26-1608**

## Location

Euston Approaches

## Duration

Weekend working from Saturday 24 January to Saturday 28 February 2026

## What we are doing

Overnight working and maintenance works within site when the tracks are not in use.  
Daytime and overnight working within site when haul road not in use.  
Installing new site access door on hoarding  
Hoarding maintenance works

## What to expect

Footpath closure on Stanhope Street and Park Village East  
Lane closure on Hampstead Road  
Periods of increased noise before 10pm.  
Monitoring of our works to ensure we are working within approved noise limits.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

## **Stanhope Street access gate**

We are installing a new site access door within our hoarding at the junction of Stanhope Street and Park Village East. We will be working within site and on the footpath only on Saturday 31 January, 8am to 5pm and Sunday 1 February, 8am to 1pm. Pedestrian access will be maintained at all times.

We appreciate your patience and understanding while we carry out these works and we apologise for the inconvenience caused.

## **Install of L-units in Camden Cutting north**

In Camden Cutting north, we will be installing concrete support structures, known as L-units close to the Network Rail tracks. We will lift the L-units and secure them into place.

On Saturday 7 to Sunday 8 February, we will work overnight from 8pm to 1pm to install the L-units while the tracks are not in use. We will require additional weekends throughout the year to complete these works which we will update on nearer the time. We do not expect these works to be noisy.

## **Hoarding maintenance and white lining removal on Hampstead Road**

We carry out regular maintenance to our site hoarding on Hampstead Road once a month on a Saturday night. We will carry out this work overnight on Saturday 24 January and Saturday 21 February.

We will temporarily close the northbound lane on Hampstead Road and maintain two-way traffic in the southbound lane. You may notice brief periods of noise as we clean the road and hoarding. During our February hoarding maintenance works, we also plan to remove some white lining on Hampstead Road and within our site. These works have been rescheduled from January. There will be periods of increased noise, however we plan to complete all noisy works before 10pm to minimise disruption.

## **Overnight and weekend working in Euston Throat**

We are continuing our works to remove the Network Rail wall in the Euston Throat area.

We will work overnight as required to reduce the height of the scaffold, as we lower the wall. We can only carry out the scaffolding works when the rail tracks below are not in use. We have chosen the quietest methods possible for this work to reduce impact to neighbours.

We will work overnight on Saturdays and Sundays, 9pm to 9am on the following dates:

- Saturday 31 January
- Saturday 7 February
- Sunday 8 February

## **Utility works on our haul road within site**

We are continuing our utility diversion works on Hampstead Road as well as our cable pulling works in preparation for the Hampstead Road bridge extension.

For the next phase of our works, we need to work on our haul road within site during weekends when the area is not in use. We will be working on Saturday 31 January 8am to 6pm and Sunday 1 February, 10am to 6pm and continue with this schedule throughout remaining weekends in February. All noisy works will be carried out before 1pm. On 27 and 28 February we will work overnight from 5pm to midnight.

## **Large load movements**

To facilitate our deliveries and collections, we regularly have large loads delivered to or collected from our worksite via Hampstead Road gate and the Vehicle Holding Area. For safety reasons, these loads need to be moved at night or early morning to avoid peak traffic hours. Due to the size and weight of these loads there may be occasions where our approved lorry routes are not suitable, and the haulier may need to use alternative roads. Our traffic management team will be present to assist the haulier in safely navigating the route and traffic marshals will be on site to guide lorries in and out of our worksites.

These movements will continue on various dates throughout the duration of the project.

## **Euston Approaches text messaging service**

We previously informed you that we would be launching a new SMS messaging service within the Euston Approaches to share information on our planned works, changes or delays to works, and extended working hours. Each text message will contain a short summary of the key information and a link to the full update on the HS2 website.

Should you wish to receive our SMS updates please complete a short online form which can be found here <https://forms.office.com/e/U35Yjvy1ed> by providing your name, contact number and street name. You will be able to unsubscribe at any time by following the link provided in each SMS.

## Where we will be working

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

### Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: [www.hs2.org.uk/how-to-complain](http://www.hs2.org.uk/how-to-complain)

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: [www.hs2.org.uk/independent-commissioner](http://www.hs2.org.uk/independent-commissioner)
