Update: Overnight and weekend works in February and March 2026

HS2-SCS-26-1608

Location

Euston Approaches

Duration

Weekend working from Saturday 21 February
to Sunday 22 March 2026

What we are doing

Overnight working and maintenance works
within site when the tracks are not in use.

Daytime and overnight working within site
when haul road not in use.

Hoarding maintenance works.

Removal of small office building within site.

What to expect

Lane closure on Hampstead Road.

Periods of increased noise before 10pm.

Monitoring of our works to ensure we are
working within approved noise limits.

We are committed to keeping you informed
about work on HS2. This includes ensuring
you know what to expect and when to expect
it, as well as how we can help you. Should you
have any questions or concerns about our
works you can contact us by:

Overnight and weekend working in Euston Throat

We are continuing our works to remove the Network Rail wall in the Euston Throat area.

We will work overnight as required to reduce the height of the scaffold, as we lower the wall. We can only carry out the scaffolding works when the rail tracks below are not in use. We have chosen the quietest methods possible for this work to reduce impact to neighbours.

We will work overnight on Saturdays and Sundays, **9pm to 9am** on the following dates:

- **Saturday 28 February**
- **Sunday 1 March**

Following the removal of the Network Rail wall, we'll begin sheet piling in the Euston Throat work site. You may notice brief periods of noise while we install the piles.

We will work from **8am** Saturday through to **8am** on Sunday on the following dates:

- **Saturday 14 to Sunday 15 March**
- **Saturday 21 to Sunday 22 March** (contingency)

We will minimise noise impacts where possible and continually monitor noise levels to ensure we're working within the approved limits.

Utility works on our haul road within site

We are continuing our utility diversion works on Hampstead Road as well as our cable pulling works in preparation for the Hampstead Road bridge extension.

For the next phase of our works, we need to work on our haul road within site during weekends when the area is not in use. We will be working on **Saturday 21 February, 8am to 6pm** and **Sunday 22 February, 10am to 6pm** and will continue with this schedule throughout remaining weekends in February. All noisy works will be carried out before 1pm. On **27 and 28 February** we will work overnight from **5pm to midnight**.

Removal of small office building within site behind Xavier House

We need to remove a small office building within our site, close to Xavier House on Hampstead Road that is no longer in use. Fencing will be placed around the area, as we use a digger to remove small sections at a time. We will work over two consecutive weekends to dismantle the building. Due to the proximity of the building to the Network Rail tracks, we can only do this work over the weekend. We do not expect these works to be noisy.

We will be working on **Saturday 21 and Saturday 28 February, 8am to 6pm**, and **Sunday 22 February and Sunday 1 March, 10am to 4pm**.

Cable pulling works behind Park Village East hoarding – weekends in March

We require two weekends in March to complete some additional cable pulling work within site. We need to pull cables over our haul road when the area is not in use. We will be working within our hoarding on Stanhope Street to below Mornington Street Bridge.

We will be working on **Saturday 7 March, 8am to 6pm** and **Sunday 8 March, 10am to 4pm**.

Hoarding maintenance on Hampstead Road

We carry out regular maintenance to our site hoarding on Hampstead Road once or twice a month, on a Saturday night. We will carry out this work overnight on **Saturday 7 March** and **Saturday 21 March**.

We will temporarily close the northbound lane on Hampstead Road and maintain two-way traffic in the southbound lane. You may notice brief periods of noise as we clean the road and hoarding.

Large load movements

To help with our deliveries and collections, we regularly have large loads delivered to or collected from our worksite via Hampstead Road gate and the Vehicle Holding Area. For safety reasons, these loads need to be moved at night or early morning to avoid peak traffic hours.

Due to the size and weight of these loads there may be occasions where our approved lorry routes are not suitable, and the haulier may need to use alternative roads. Our traffic management team will be present to assist the haulier in safely navigating the route and traffic marshals will be on site to guide lorries in and out of our worksites.

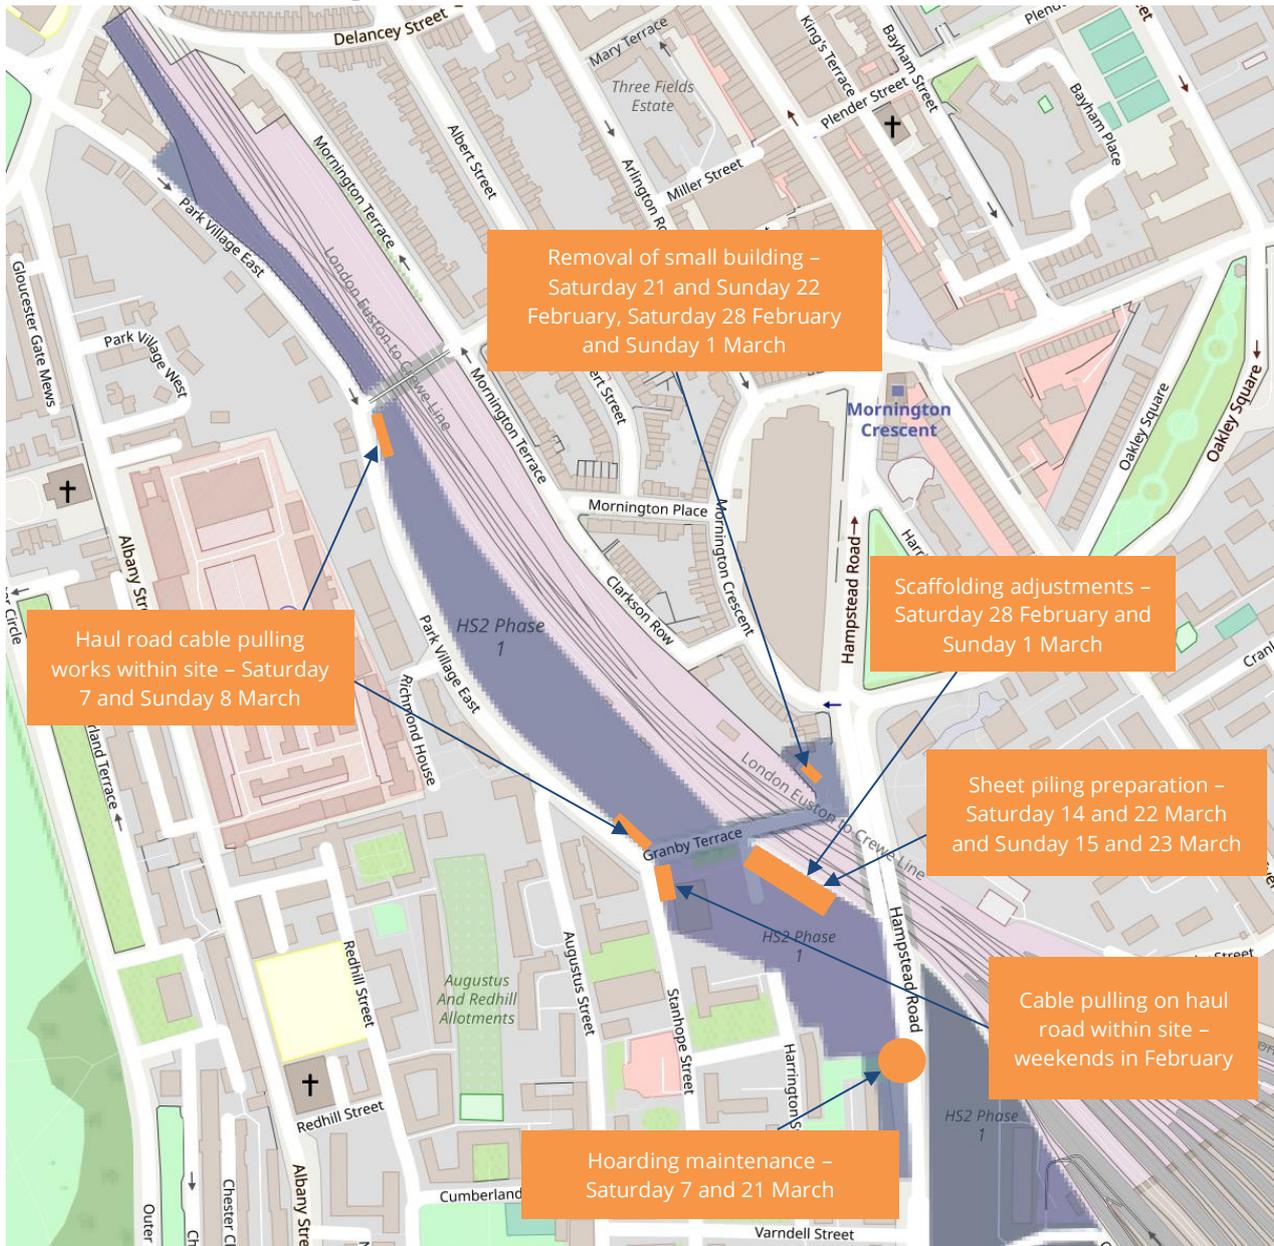

These movements will continue on various dates throughout the duration of the project.

Euston Approaches text messaging service

We previously informed you that we would be launching a new SMS messaging service within the Euston Approaches to share information on our planned works, changes or delays to works, and extended working hours. Each text message will contain a short summary of the key information and a link to the full update on the HS2 website.

Should you wish to receive our SMS updates please complete a short online form which can be found here <https://forms.office.com/e/U35Yjvy1ed> by providing your name, contact number and street name. You will be able to unsubscribe at any time by following the link provided in each SMS.

Where we will be working

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
