Update: Overnight and weekend works in May and June 2026

HS2-SCS-26-2129

Location

Euston Approaches, Camden

Duration

Weekend working from Saturday 30 May to Sunday 28 June 2026

What we are doing

Removal of concrete and scaffolding in Camden Cutting North area.
Daytime, evening and overnight working near Granby Terrace Bridge and Euston Throat area.

What to expect

Periods of increased noise.
Monitoring of our works to ensure we are working within approved noise limits.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Weekend working in Camden Cutting north

We need to complete some excavation and removal of concrete at track-level in several areas within the Cavern. Due to the location of these works, we can only carry this out when the rail tracks below are not in use. We expect there to be some noise during these works, however we'll aim to complete all noisy activities during the day. We'll work during the day and overnight from **8am on Saturday 30 May until Monday 1 June until 6am**. We apologise for any disruption these works might cause.

We also need to remove some scaffolding in this area which we'll complete on **Saturday 30 May from 8am to 5pm**. We do not expect these works to be noisy.

Weekend working in Euston Throat

We are continuing our works to remove the Network Rail wall in the Euston Throat area.

We'll remove the scaffold and make amendments to the hoarding. We can only carry out these works when the rail tracks below are not in use. We do not expect these works to be noisy. We'll work from **9am on Saturday 30 May to 9pm Sunday 31 May**.

Weekend working near Granby Terrace Bridge

We need to complete some enabling works to facilitate the build of our haul road across Granby Terrace bridge. This will involve lifting concrete blocks onto the newly constructed bridge. We'll work consecutive weekends overnight from **9pm on Saturday 6 June until 9am on Sunday 28 June**. These works need to be completed at the weekend when our site haul route is not in use. We do not expect these works to be noisy.

We'll also be reinforcing some containment units on Granby Terrace bridge overnight from **9pm on Saturday 6 June until 6am on Sunday 7 June**. We can only carry out reinforcement works when the rail tracks below are not in use. We expect there to be some noise during these works, however we'll continually monitor noise levels to ensure we are working within the approved limits. We apologise for any disruption these works might cause.

Ongoing surveys and monitoring at track-level within the Euston Approaches

We carry out regular surveys and monitoring of the bridges and structures within the railway cutting, to inform and assess the impact of our works. For safety, due to the location of these structures beside, above and below the railway tracks, we can only carry out these surveys when the tracks are not in use. This means we frequently carry out surveys during weekends and overnight shifts.

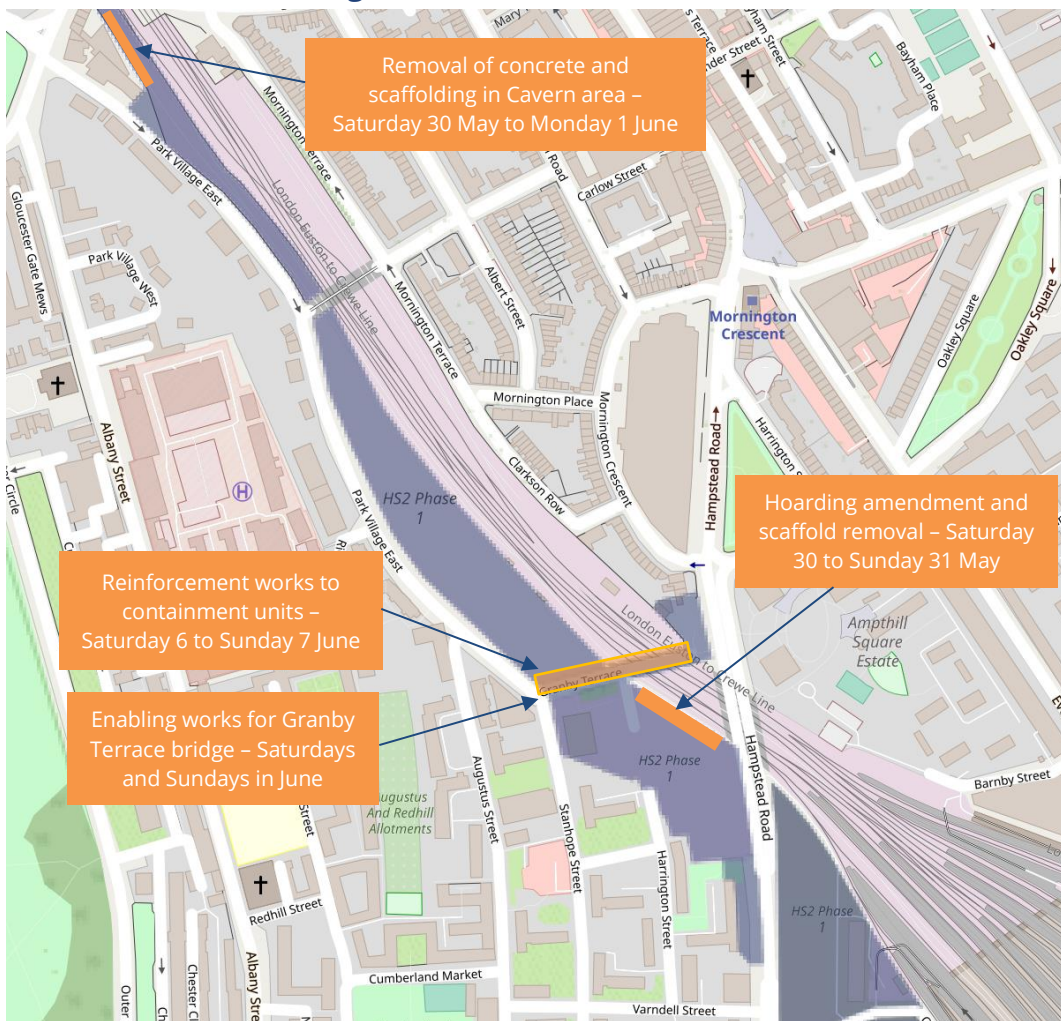

Large load movements

To help with our deliveries and collections, we regularly have large loads delivered to or collected from our worksite via Hampstead Road gate and the Vehicle Holding Area. For safety reasons, these loads need to be moved at night or early morning to avoid peak traffic hours.

Due to the size and weight of these loads there may be occasions where our approved lorry routes are not suitable, and the haulier may need to use alternative roads. Our traffic management team will be present to assist the haulier in safely navigating the route and traffic marshals will be on site to guide lorries in and out of our worksites.

These movements will continue on various dates throughout the duration of the project.

Where we will be working

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
