

Upgrading utilities: cable diversion

HS2-OOC - SCP-25-1585

Location

Old Oak Common Station

Duration

January 2026 until late May 2026

What we are doing

As we continue with the work at Old Oak Common Station, we are upgrading power cables to modernise the network ahead of the opening of the station.

As part of the renewal, we need to install new ducts underneath the railway bridge and along the south of Wells House Road to protect the cables.

We are working with utility companies to update their cables and pipes, which will mean less disruption to residents and businesses in the future.

What to expect

The impact on residents will be minimal, but you might see some different type of work on our site from the back of your property.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Freephone **08081 434 434**

Minicom **08081 456 472**

Where we will be working

Please see map below where the work will be taking place:

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
