More about these works

Traffic management will not be required for this work, as all activities will take place safely within the BBV HS2 M6 main compound site on Coleshill Heath Road. We will provide further updates if anything changes. These works remain subject to consent.

Our planned work to build the new high-speed railway for Britain remains unaffected by the permanent closure of this site. Our other HS2 sites in the area will remain open as usual as we continue to build the railway.
