Additional information

We will be delivering abnormal loads of concrete beams to our Greatworth compound, along the B4525. The delivery will be under police escort for the final part of their journey from the A43 to the Greatworth compound via the B4525 approved delivery route.

There may be some short delays, please follow the directions of the Police escort.

To accommodate and prepare the abnormal load deliveries for the escorted onward journey, we need to close a northbound layby on the A43 for 24 hours, as shown on the map below. The northbound layby affected is located on the A43 between the junction with the A421 and the junction with Broad Lane.

We would ask motorists to plan their journey and seek alternative A43 northbound layby areas during this closure.

This information is subject to the necessary consents and approvals.

The map below shows the escorted abnormal load delivery route from the A43 to the EKFB Greatworth Compound.
