10 February 2026

Dear neighbour,

Noisy overnight piling work near Scrubs Lane.

What's happening?

We recently wrote to you about some overnight engineering works near Scrubs Lane as part of the wider work to facilitate the building of the HS2 station here. We've had to cancel the work that was planned for the early morning of 15 February and reschedule the work due to the amount of available time being reduced. Below you will see the new planned dates and times.

When and where are we working?

The work will involve installing a piled foundation for overhead line equipment between 0100-0400 on Sunday 8 March and should we need to use it, we have a contingency shift between 0100-0400 on Sunday 17 May in the location marked on the map on the other side of this letter.

Electrification: What do we mean by piling, masts and overhead wires?

Our website has really good information on what we do and what it involves, scan the QR Code or visit the site via <https://bit.ly/rail-electrification>

We're sorry if our work disturbs you, it will be noisy at times, and we may occasionally use bright lights, but we'll make every effort to keep disruption to a minimum.

If you have any queries about the work, please telephone our 24-hour national helpline on 03457 11 41 41 or email NRHS2@networkrail.co.uk. Please use the reference at the start of this letter.

Yours sincerely,

Network Rail West Coast South Community Relations
