Additional information

In order to construct the Wendover green tunnel, a temporary realignment of Ellesborough Road was introduced for public use. The new road incorporates a temporary bridge carrying road traffic. In April 2026, we will perform routine inspection and general maintenance work on the bridge to ensure continued safe operation of the structure.

Pedestrian and resident access on the existing Ellesborough Road will be maintained throughout the closures.

Where we will be working

The map below shows the area of the overnight road closure and diversion route that will be in operation.
