

Notice of abnormal loads Aylesbury

HS2-EKFB-26-2019

Location

Central Aylesbury via A41 Tring Road, A41 Friarage Road and A418 Oxford Road

Duration

Sunday 17 May, 6pm-8pm.

What we are doing

We are advising residents and road users of an upcoming delivery of a steel footbridge that will be positioned over the HS2 line. Because the footbridge is an exceptionally large structure, its delivery is classed as an abnormally sized load. This means the movements have been carefully planned and will be supervised with appropriate traffic management to ensure the safety of residents, pedestrians, and road users, and to allow safe travel through Aylesbury.

What to expect

Up to 15-minute rolling road closures and/or traffic management may be required along the delivery route to allow the vehicles to move through the area safely. These will take place in the early evening to help keep any disruption to a minimum.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Where we will be working

The map below shows the planned delivery route. At several locations along the route, there may be brief periods of traffic management and/or short road closures to allow the delivery vehicles to pass through safely.

The vehicles will travel through central Aylesbury to reach the EKFB compound on the A418. Following careful planning and assessment, this route has been selected as the safest and most suitable option. It avoids roads and bridges that are not designed for very heavy loads and reduces the need to remove signs, barriers, or other street furniture. This approach helps to keep disruption to residents and road users to a minimum.

We understand that the presence of large vehicles may cause some short-term inconvenience and we would like to thank the community for their patience and cooperation while these essential deliveries take place.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
