

Old Oak Common: Haul road works

HS2-OOC - SCP-26-2090

Location

Old Oak Common Station

Duration

Mid-May – Late June 2026

What we are doing

We are building a new site road in the middle of the Old Oak Common Station site to better accommodate the movement of vehicles and handover sections of site to our delivery partners.

What to expect

The works will involve breaking out the concrete base from an existing road and then building a new road along the conventional station track area.

This work will run within core hours, and mitigation will be in place. This includes acoustic sheets to limit noise.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Where we will be working

Works will take place entirely within the Old Oak Common Station site, next to the Great Western Mainline, in what will be the future conventional station.

Minimising impact to the community

We are making every effort to reduce any impact this may have on you as a resident. This includes monitoring and managing our noise levels within agreed limits, however we will be installing sound barriers to protect residents from any potential noise.

Additionally, we will be suppressing dust, and the team will be using radios and hand signals to limit disruption. All our moving equipment will be fitted with white noise reversing barriers instead of beeper alarms.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
