

Overnight preparation of a water pipe on Old Oak Common Lane

HS2-OOC - SCP-26-2147

Location

Old Oak Common Lane

Duration

- Monday 1 June until Monday 8 June, overnight only
- Working hours: 11pm until 7am

What we are doing

We need to prepare a new part of the water main in a process known as 'chlorinating' for several nights. The water main is being commissioned as part of the utility diversions which are taking place on Old Oak Common Lane. The work needs to be carried out overnight when water pressure is the lowest.

What to expect

Your water supply will not be impacted. The work will not be noisy, but there will be some noise from staff and machines. We'll be operating machines such as generators to power the pumps which abstract water from the main. We'll also use tools such as wrenches. Our workers will keep noise to minimum and use acoustic barriers for the equipment.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Where we will be working

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
