

Notice: Curzon Approach Viaduct Bridge Push

HS2-BBV-26-2070

Location

Curzon Approach

Duration

On Friday 29 May 2026 until Monday 1 June 2026 Network Rail will close the Birmingham to Derby railway line enabling our teams to work over the line. The team will make best use of this time by working all day and all night. There will be a requirement for preliminary and completion work before and after this timeframe.

What we are doing

The Curzon 2 bridge (sometimes referred to in the media as the Bellingham bridge), a key part of the route that will carry High Speed trains into the centre of Birmingham is now complete. We will now launch this bridge into its permanent position over the railway line.

What to expect

This work will have no highway impacts as it is over the existing Network Rail lines. It will require a 24-hour working pattern so there will be some low-level construction noise and lighting overnight. Noise levels will be monitored throughout.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
