Where we will be working

Concrete structures

We are expanding our ongoing concrete activity in the conventional station and the station control area, as previously notified in **Update on Old Oak Common conventional station works (ref: HS2-OOC - SCP-26-1734)**, with the building of formwork, concrete pours and finishing. This will be to pour concrete to the platform slabs, station overbridge and floor slabs for the station control area building.

Weekend works are also ongoing for the new site road, as notified in the AWN **Old Oak Common: extended working hours within station site only (ref: HS2-OOC - SCP-26-2164)**.

Mitigation

This work is unlikely to disturb residents, but you may be able to hear general site activity and deliveries and see large cranes working. We will mitigate noise with shrouds and acoustic barriers where possible and we will damp down to limit dust impacts. Staff will be briefed on remaining quiet and respectful of the community when entering and leaving site on weekends and out of regular hours.

Working times

- **Weekends:** 8am to 6pm
- **Weekdays:** 8am to 6pm (most days)
- **Occasional weekdays and weekends:** 6am to 8am and 6pm to 10pm
